

Teator - Teter Tree

Spring 2025

Newsletter #46

Updated Family Tree

A persistent cold NY winter is fading before April's strengthening sun and I hope life is treating everyone well.

One of my winter projects was to update the family tree and to share. I believe I am up-to-date and ready to share.

Although I do have more information about many of you in my files, I have included only the year of birth, death, and marriage for this chart, mostly for the sake of length of this newsletter. I will try to produce a full report, with good intentions of doing that next year.

If you do not see a year posted in the chart, assume that I do not have that info (and would enjoy gathering that info).

There are some names/people I do not know and thus could not place them in the chart. If that person exists, please let me know.

Just as important, maybe more so, if I have left anyone out, please let me know and please accept my apology. I have triple-checked but, as some of you may sympathize, such things happen from oversight or technology haze!

One issue I have with the genealogy programs is the nomenclature for couples in a

committed relationship but are not married. Not only do the computer programs have difficulty, so too does our culture.

For three of you (Glenna, Mick, Nate B), I have used "so" (significant other), a term I am looking to improve upon. My apologies for a lack of clean nomenclature. And for those of you in a relationship that I may not be aware of, and is not listed, but you wish to have it noted, please let me know.

I have knowingly placed a person in a family unit who technically should not be there. But, Linda Turner, a granddaughter of Evelyn Teator from a non-Teator-bloodline, was such an accepted family member in the Norman and Evelyn Teator family that, with the urgings of that family, I am willing to do those biddings as long as its accuracy is noted. My notes will indicate that background in a separate section of a fuller report.

For the sake of breaking up the mass of text and also to show relationships, I have bolded and underlined the names of the grandchildren of John Teter. I then bolded the grandchildren of those grandchildren (the fifth generation). The seventh generation is the newest one except for one recent eighth generation arrival.

New Vitals:

Birth:

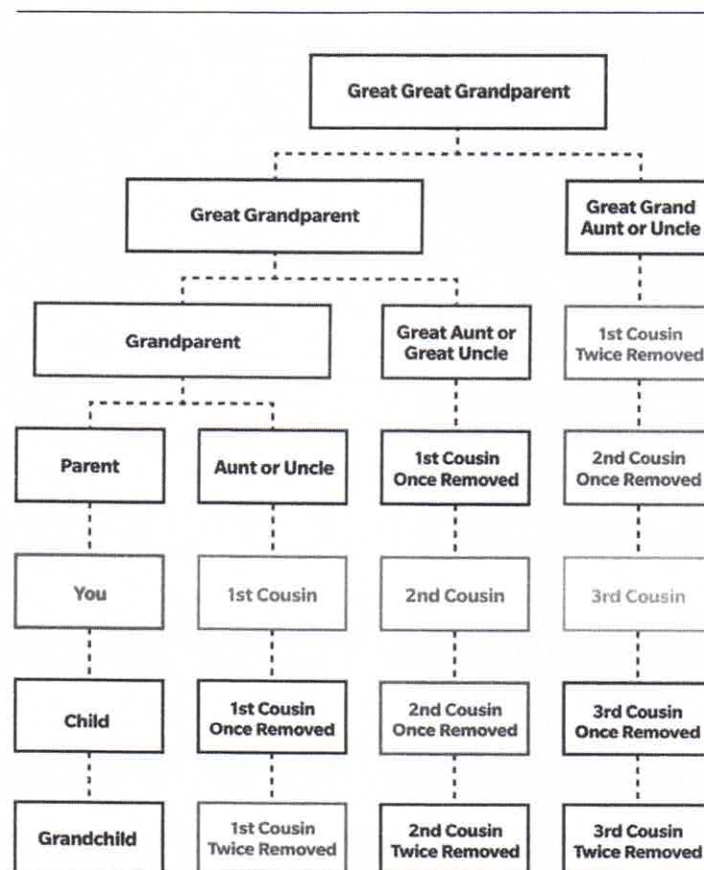

Lina Iris Green, born 5 Dec 2024, to Bekah (Richardson) and Derek Green. Lina was born at 8:35 pm, 21 inches long, and weighed 7 pounds, 9 ounces. The proud grandparents are Phyllis (Teator) and Cliff Richardson.

For a while, this was the only vital that had trickled in. And then, Herman Reinhold relayed information from his brother Sky Ben. It is easier for me to present it as the same grouping as was given to me.

the Sky Ben line update:

- Mick and significant other Amanda Jo Bair
- a daughter Delilah Eve Benz: 22 Nov 2024
- Nate and significant other Hannah Joyce Dutton
- daughter Adelle Jayla Ben: 7 Mar 2023
- Gage married Koda Lee Hansen: 30 Mar 2024
- son (adopted) Charley Lee Ben: 4 May 2017
- son Artemis Dale Ben: 22 Feb 2023
- son Aurum Thaddeus Ben: 30 Aug 2024

In addition to the new placement of the above vitals, please note that the Maurice Nack line now fits snugly into the tree. His story has been a topic in the last two newsletters. Nice to have the Nack and Tracey lines take their place!

Other Lines to Include

Although this is a John Teter Descendants Tree, circumstances have allowed us to gladly share with three other families that would connect if we would go back in time one more generation. For brevity's sake, I will make the main points and I hope to give a fuller account in the coming year.

Our John Teter's father was David Teter.

David Teter married Catherine Hess.

Together they had seven children:

- Clarinda, 1813, never married
- Betsey, 1815, never married
- John, 1816, we descend from him
- Luther, 1822, never married
- Calvin, 1829, married Hannah Jackson, and has a long line
- David, 1833, married twice, had three children
- Julia, 1839, married a West, and has a long line.

Let's turn our attention to Calvin from whom these three families descend.

Calvin and wife Hannah bore six children: Frances, George, Charles, Lillian, Burton, and Elwin.

Burton, the fifth of Calvin's six, has as children: Clayton, Leland, Lydia. Clayton's only child is our Barbara Teter who has attended our last several Reunions.

Next, we turn to George, the second of Calvin's six. George, and Olive, bore children: Earl, Walter, Marion. Marion, and wife Anita, bore two children: Ruth, Ralph.

Ralph, and his wife Gladys, bore children: our Bonda (married our Brink), our Susan (married Buscher, Weaver), and our Wayne, who, along with Charlene, have attended the Teator/Teter Reunions long enough for us to claim him as ours!

I would like to introduce the next generation back in the next newsletters. Also part of the next newsletter will be an outline of Wayne and Susan's lines to the current day.

Reunion

I hear someone asking: What about the next Reunion?

I have plans for 2026. I am thinking Spring, probably May. I will try to be more particular in the Fall Newsletter but if you want to have input, please email or call me.

=====

This newsletter has been good for my soul. I need to spend more time doing this. And if there is a future/current Teator/Teter genealogist, please let me know. I need to digitize more of this, and I need to share my files with anyone who wants to be shared with. As I approach my mid-70s, that tapping I am hearing over my shoulder gets a little louder each year.

Take care,
Don

Descendants of John Teter

- 1 John Teter (1816 - 1866)
 - + Lydia Richmond (1827 - 1884) m: 1845
- ...2 Alexander Teator (1847 - 1929)
 - + Elsie Sweet (1873 - 1936) m: 1901
- ...3 **Olin Richmond Teator** (1902 - 1983)
 - + Grace Eva Hallock (1898 - 1948) m: Abt. 1922
- ...4 Martha Elsie Teator (1923 - 1978)
